Technical Skills				
Node.js	Express.js	NestJS	Next.js	React
TypeScript	HTML	CSS	JavaScript	RDBMs
MongoDB	Render	GitHub Actions	AWS	Docker

Experience	
<b>Ambulatory Health Care Institute Incorporated / Clinica Manila</b>	<b>January 2025 - August 2025</b>
Intern/Project-Based Full Stack Web Developer	SM Megamall, Mandaluyong City
<ul style="list-style-type: none"><li>Medical Examination Management System<ul style="list-style-type: none"><li>A web-based system designed to streamline the management of APE, PEME, Executive, and Diagnostic medical examinations.</li><li>Built with TypeScript, React, Tailwind CSS, Axios, TanStack Query, Zustand, Node.js, Express.js, MySQL, Cloudinary, REST API, and Socket.io</li><li>Key features include pre-filled PDF generation, notifications, data analytics, a dynamic form builder, data versioning, and file encryption, decryption, viewing, and upload to cloudinary.</li></ul></li><li>HR Portal<ul style="list-style-type: none"><li>A web application that enables HR staff to easily receive and view employees’ medical test results.</li><li>Built with TypeScript, React, Tailwind CSS, Axios, TanStack Query, Zustand, Node.js, Express.js, MySQL, Cloudinary, and REST API.</li><li>Supports secure viewing of uploaded medical documents and files stored in Cloudinary.</li></ul></li></ul>	

Projects
If you want more details please contact me at my email address.
<b>Matchy</b>
Matchy is a dating app that helps people discover new matches, chat in real time, and share photos with ease. <a href="https://matchy-1uri.onrender.com/">https://matchy-1uri.onrender.com/</a>
<ul style="list-style-type: none"><li>Built with Next.js, Tailwind CSS, shadcn/ui, Zustand, Zod, and React Hook Form</li><li>Used React Server Components (RSC) for optimized data fetching, Server-Side Rendering (SSR) through Server Actions for secure mutations, and Client-Side Rendering (CSR) for interactive user interfaces</li><li>Backend developed using NestJS, MongoDB/Mongoose, Passport.js (JWT + Google OAuth), and Cloudinary</li><li>Implemented CSRF protection and CORS</li><li>Added real-time chats and notifications using WebSockets + Socket.IO</li><li>Includes Feeds module with swipe-style matchmaking</li><li>Supports photo and album uploads with Cloudinary</li><li>Fully Dockerized frontend &amp; backend for dev and production</li><li>Automated CI/CD pipeline using GitHub Actions → Docker Hub → Render Deployment</li></ul>

<b>Portfolio</b>	<b>October 2025</b>
A personal portfolio website built to showcase my skills, experience, and projects, while also serving as a learning project to explore NestJS. <a href="https://jgf-portfolio.onrender.com/">https://jgf-portfolio.onrender.com/</a>	
<ul style="list-style-type: none"><li>Developed with React, Axios, TanStack Query, Zustand, Zod, and React Hook Form for frontend.</li><li>Implemented a secure NestJS REST API featuring JWT, CSRF, CORS, rate limiting, and Helmet.</li><li>Explored NestJS modules, DTO validation, and middleware configuration for robust backend design.</li><li>Integrated Cloudinary for image and PDF uploads with efficient storage management.</li></ul>	

<b>Capstone Project: Mobile and Web Patient Workflow System</b>	<b>March 2024 - November 2024</b>
MediQueue is a Patient Workflow System is a system that includes both a mobile and web application. It aims to simplify and improve patient data processing and care delivery.	
<ul style="list-style-type: none"><li>Optimized database interactions using MongoDB aggregations, pagination, and efficient search capabilities.</li><li>Secured the app with JWT-based authentication, role-based access control, CORS, and request logging.</li><li>Implemented OTP-based recovery for email address and mobile number.</li><li>Automated deployments using CI/CD pipelines using GitHub Actions.</li><li>Designed a descriptive analytics module with Chart.js for data visualization and PDF/Excel report generation.</li><li>Created a cross-platform mobile app with Flutter frontend and Node.js, Express.js, and MongoDB backend.</li><li>Implemented real-time data synchronization using Socket.io for web and Server-Sent Events (SSE) for mobile application.</li></ul>	

Education	
<b>National University - Manila</b>	<b>August 2021 - August 2025</b>
BS Information Technology: Mobile and Web Applications	

Languages	
<b>English</b>	<b>Filipino</b>
C2 (Proficient)	Native speaker
